3 Youths Caught in Burglary At Tri-Mor

Armed Bandit Gets \$50
In Holdup; Carpeting
Worth \$1400 Stolen

Three youths were arrested as suspects in a burglary which police interrupted while it was in progress, an armed bandit held up a service station attendant and a theft victim carried the thieves who stole his minibus in a series of week-end crimes reported to Quad-City area authorities.

Carpeting worth \$1400 was stolen in one of several burglaries and five autos were looted on the same parking lot.

Granite City police interrupted a burglary in progress at the Tri-Mor Bowl, 5701 N. Main, at 1:45 a.m. Sunday, making three arrests.

It was the second time in three days that the police had captured suspects at a burglary scene. Early on Oct. 30, two boys, aged 15 and 16, had been caught at the W. T. Grant store in the act of chopping a hole in the roof.

Entry to the bowling establishment was gained by using a concrete block to smash a rear glass block window of a boiler room. After climbing through the window, two youths allegedly opened a rear service entrance door and descended to the basement.

Notified that someone was at the rear of Tri-Mor Bowl, police entered the building and saw a young man, aged 16, carrying a case of beer. He ran behind a dumb-waiter shaft but was captured and handcuffed.

Anthony Szymek, 18, of 2054 Fourteenth street, was found at the top of the shaft hanging onto steel rails of the shaft.

Charges Filed
Burglary charges were filed against Szymek and Miss Deborah K. Rill, 19, 2205 Pontoon road, who was found at the rear of the building. Preliminary hearings were held for 3 p.m. today, and the girl was freed on \$5000 recognizance bond Sunday.

Szymek remained in jail and the 16-year-old boy was taken to the Madison county juvenile home.

Police said all three were at the rear of the bowling lanes.

William Moran,
22, Found Dead
At Rutland, Vt.

William M. Moran, 22, of 2801 Idaho avenue, missing for almost two months from Spring Lake Ranch near Rutland, Vt., was found dead Saturday in the Rutland area, five miles from the ranch.

He was found by two hunters in a heavily wooded area. Visual inspection of his body failed to provide any clue as to the cause of death; there were no obvious injuries.

An autopsy and inquest are to be held in Vermont early this week.

Intensive Search
An intensive search had been conducted, with helicopters and bloodhounds utilized and many people searching the area.

However, the trees and foliage are thick and light is limited in that area due to the density of the forest. He may have become lost; roads through the wooded area are not visible even a few feet away from them.

He apparently died in early September. He had been missing since Sept. 3.

When it became known that he was missing, and when initial efforts to find him failed, it was assumed that he might have walked away from the Vermont retreat in an effort to walk and hitchhike to Granite City.

Law enforcement authorities and the public were alerted in the hope of locating the young man along the route between Vermont and Illinois, and in circulars describing him were circulated.

Hurt in 1965 Auto Crash
He was a very gentle young man, "plagued by a memory lapses since being seriously injured four years ago in an auto crash."

The son of Appellate Court Judge and Mrs. George J. Moran, he graduated from St. Louis University high school in 1965 and had enrolled at the University of Illinois for the fall term that year.

He was attending classes at Washington University, St. Louis, during the summer of 1968 when the traffic accident occurred.

He was born in Granite City and was a lifelong local resident. He was a member of Sacred Heart Catholic Church.

Moved by a brother, George J. Moran Jr., 21, and a sister, Miss Kathleen Moran, 18, both of Granite City, he arrived here Wednesday and he will be at a Granite City funeral home that evening, with funeral services to be held Thursday at Sacred Heart Church. An obituary notice is given elsewhere in this issue.

New Parks Urged by Venice-Madison Plan

(Last of a series)
BY HARRY BARNES

Acquisition of two new parks — one of 5.2 acres in West Madison and one of 11.4 acres in Venice — are among capital improvements recommended for immediate action in the new Comprehensive Development Plan recently completed for Venice and Madison by the Southwestern Illinois Metropolitan Area Planning Commission.

In addition, the plan urges acquisition of two new fire stations in Venice as part of the 1969-75 six-year improvement program, and also includes a recommendation for construction of a new city hall in Venice.

These projects, along with the first phase of the proposed Venice-Madison Neighborhood Development program, and a series of projected street and highway developments already covered in these articles, make up the \$8,553,000 worth of capital improvements which the report suggests should be carried out by the two communities within the next six years.

The projected planning for parks estimates cost of the West Madison park at \$28,000, including cost of land acquisition and the cost of the Venice park at \$37,000, also including land costs. The plan reports that the cost of the Venice park is \$37,000, also including land costs. The plan reports that the cost of the Venice park is \$37,000, also including land costs.

The remaining 50% of cost, \$13,000 for the West Madison park and \$18,500 for the Venice park, would be provided from the general funds of the two communities, the report asserts.

The report suggests location of the West Madison park in an area adjoining Dunbar street, extending to the Veneta area, as well as serving nearby residential areas, also would serve as additional playground space.

The neighborhood park suggested for the Venice area should be located in the area south of the public housing facilities on Fourth street to provide recreational opportunities for the residents of the area.

Another office escorted the car to Broadway and the railroad tracks, where it was stopped on State street.

Arrested on disorderly conduct charges were Merle Dean Flint, 29, Jerry Dale Nash, 29, Neal Wayne Elwell, 22, Anthony John Russo, 21, Judy Ann Nash, 18, and Arlene Bernice Thompson, 17.

Authorities said Elwell had been sarcastic and unruly and refused to give information to the booking officer. A charge of resisting arrest was filed against him. Later, police said, Elwell was transferred to the Madison city jail.

All were released Saturday morning on cash bail pending a Nov. 12 magistrate hearing.

Mother Killed Pushing Children Off Roadway

Mrs. Carol Boner, 30,
Struck by Car While
Walking at Mitchell

A mother was struck and killed by an auto after shoving two of her children to safety as the family was walking along Old Alton road at Meadow lane, Mitchell, about 5:30 p.m. Thursday.

Killed was Mrs. Carol Ann Boner (nee Franklin), 30, of Rural Route Two, who was dead upon arrival at St. Elizabeth's hospital. She suffered a skull fracture and a leg fracture.

Mrs. Boner was walking along the highway with her husband, Marshall, Edward Boner, and their four children, Lynette, Rene, eight, Robin Dawn, seven, Mark Edward, six, and David Michael, three, when the accident occurred.

The Boners, who live along Old Alton road, north of Interstate 270, were on their way to the home of the children's grandparents, Mr. and Mrs. Lee Boner, who live on Meadow lane.

Saw Car on Road Shoulder
The father told Deputy County Ord. Werner that he heard the car approaching from behind, and when he turned around, noticed it was on the shoulder of the road.

Boner yelled to his wife, who pushed two of the children off to the side, and at the same time she pushed the other two children off the shoulder but was unable to reach his wife, who was pushed into the path of the car.

Police said the car was being driven north by Miss Janette S. Farnley, 16, of 4552 Walcott, who was driving a 1968 Ford Mustang. She was driving north on Interstate 270, when she was struck by the car.

Driver Apprehended
Miss Farnley told authorities she was "traveling 35 miles an hour and saw the people on the road. I applied the brakes and saw pedestrians hit the car. I swerved into the other lane and backed up."

She was arrested by state police. A light rain had been falling Thursday evening.

The young Boner family has been beset by tragedy. Mr. Boner's auto body shop, Ed's Auto Body Shop, 2323 Adams street, was heavily damaged by fire discovered at 12:20 a.m. Friday. The shop is to reopen for business tomorrow.

\$8000 Fire Damage
The blaze, which resulted in \$8000 damage to the building and contents, also caused damage to an antique 1933 Cadillac, owned by Pete J. Dopkus of Pocaterra, who was having it restored.

The limousine had been owned by movie actress Mary Pickford. Firemen said the blaze started in an upstairs office. It burned through the office and shop roof. Cause of the fire has not been determined.

Members of the family praised generosity for reporting the fire promptly.

Thomas Byrly, 2323 Adams street, owner of the garage, said he was awakened by A. O. Smith Corp. employees who were on their way home after working the evening shift. The trucks were on the way at the time.

Three Captured In Madison Face Weapons Charges

Three men, all of Eagle Park Acres, were held by Madison police on weapons charges today as suspects in a shooting in which a parked auto was damaged by bullets early yesterday morning.

Police said the men are to be turned over later today to Madison county authorities since the shooting occurred in the Cloverleaf addition outside the Madison city limits.

Held for county authorities were William "Bull" Lucas Jr., 23, of 704 Jefferson street; Henry L. Gray, 20, of 207 Allen street; and David L. Taylor, 19, of 108 Roosevelt road.

All are charged with unlawful use of a weapon and Lucas also is charged with failure to possess a firearm owners identification.

Fired at Auto
Madison authorities said they were notified by sheriff's deputies about 2:50 a.m. yesterday that a car had been shot up at Beal's Cafe in Cloverleaf addition and that deputies were looking for four men. The shooting occurred about 1 a.m. Deputies gave Madison police a description of the car in which the suspects left the scene.

About 3:15 a.m. Madison police said they sighted the car at Fourth street and McCormick bridge avenue. Two men were about with a third was using an outside phone booth, police said.

The two police cars pulled into the area. Police said Taylor was sitting behind the wheel of the car and Lucas was asleep in the back seat. Taylor was ordered out of the car and as he got out, police noticed the stock of a gun in his right hand. The weapon was a sawed-off, single-shot 12-gauge shotgun with a 14½-inch barrel.

Police reported they searched Gray and Taylor, handcuffed them and then awakened Lucas. Police said he was carrying a .32 caliber automatic pistol in a shoulder holster, containing a live shell in the chamber and spent shells in the magazine.

Heard Four Shots
Sheriff's deputies reported that Miss Dolores Wolf, employed at Beal's Cafe, reported she had waited on four men about midnight and they had left the cafe about 12:30 a.m. She said after they were gone a few minutes, she heard four shots and did not see the shooting.

Later, an unidentified railroad worker reported he had seen one of the group that left the cafe fire at an auto which was owned by Mrs. Wolf.

Police said the bullets passed through the hood of the car and over the top of the motor. Madison police officers of the shooting and recovered a spent slug which was dug out of an embankment by the car and said two shell casings also were found.

Stolen Trucks Left In Venice, Handy to Police

Two large van-type delivery trucks stolen in East St. Louis Wednesday night or early Thursday to haul a cargo of more than \$30,000 worth of whiskey were abandoned Friday morning in Venice — by accommodating thieves who left one of the trucks in front of the home of Venice Police Patrolman James C. Cooper, 506 Jefferson street, and the other in the 700 block of Brown street, a few houses from the home of Assistant Police Chief Ralph Brawley.

The trucks were owned by Triple S Delivery Service of East St. Louis and were taken by thieves who hauled away two truckloads of whiskey from the Cardinal Distributing Co. located next door to the Triple S garage.

The thieves first broke into the garage and then broke a hole through the wall to get into the Cardinal firm, from which they loaded the whiskey into the trucks.

Most of the stolen liquor was recovered Thursday afternoon by St. Louis police acting on a tip. They found 320 cases of whiskey in a garage.

Cooper said the truck was not in front of his house when he reported for duty Thursday morning, but that he later received a call from his wife that a truck was parked in front of their home. Identifying the vehicle as one used in the whiskey theft, Cooper patrolled the area and discovered the second truck near Brawley's house.

Injured Last Week

Mr. Boner had just been released from St. Elizabeth Hospital on Wednesday after being injured earlier last week in an auto accident in which his brakes failed and his car went into a ditch at the 1270-Road 203 interchange near his home. He suffered a fractured nose.

In addition to her husband and four children, Mrs. Boner is survived by her mother, Mrs. Audrey Franklin of Granite City; three sisters, Mrs. Dorothy Louise Epp, Mrs. Barbara Patricia Perkins and Miss Jean Elizabeth Franklin, all of Granite City; and James Lee Franklin of South Roxana. Edwin Joseph Franklin of Granite City and Robert Rodney Franklin of California.

An inquest is pending. Funeral services were held today. Further information is given in the obituary column.

Crash Injuries

Three persons were injured about 3 p.m. Thursday in a car-truck collision on Highway 162, two-tenths of a mile west of Route 137.

Treated at St. Elizabeth Hospital were Mrs. Ellen Rogers, 44, of Glen Carbon, and her daughter, Mary, 18. Mrs. Rogers was treated for contusions of the forehead, right hand and abdomen.

Mary Rogers was treated for contusions of the chest and both knees. Both mother and daughter were admitted to the hospital for further treatment.

State police said Raymond G. Lewis, 40, Edwardsville, driver of a pickup truck involved in the crash, also was injured. The truck and a car driven by Charles Rogers, Glen Carbon, collided officers said, when Lewis stopped on the highway to make a left turn and was hit from the rear by the Rogers car.

Mini-Bike in Collision

Two occupants of a home-made mini-bike were knocked off and injured at 2:40 p.m. Saturday when the vehicle, east-bound on Bell avenue, collided with the vehicle of Elia Reynolds, 2433 Pontoon road, north-bound on Spring avenue.

The operator, Gary Love, 13, of 1724 Primrose avenue, seeing it was too late to clear the intersection, attempted to turn

left onto Spring avenue but the right side of the mini-bike was not permitted on public streets.

Love was taken by ambulance to St. Elizabeth Hospital along with his neighbor, Terry Cresh, 13, of 2100 Cottage avenue.

Operation of mini-bikes is not permitted on public streets. Love is in good condition. X-rays were taken, and he was treated for a deep laceration to the right leg and cuts and bruises to the scalp.

Also admitted to the hospital but released Sunday, the Cresh boy suffered cuts and a large hematoma on the scalp and multiple contusions to the right shoulder, right arm and right leg.

A motorist and an 11-year-old passenger in a car were injured at 11:30 p.m. Friday in a collision at Seventh street and Venice.

Gus Taylor, 17, and Andrew Walker Jr., 11, both of East St. Louis, were treated at St. Elizabeth Hospital. Taylor was treated for a nose injury and bruised to the back and the boy was treated for a hematoma and abrasions to the head. Both were admitted for further treatment.

Police said a car driven by Robert P. Kudelka, Rural Route One, west on Broadway made a left turn into Seventh street. The two vehicles collided at the intersection. Taylor told police his car was being pushed by another in an attempt to get it started.

Auto Overturns

Carl Christoff, 36, of Forrest City, Ark., who is living at the local YMCA, was hospitalized about 12:30 a.m. Friday with injuries suffered when his car overturned on Madison avenue near 15th street.

Police charged Christoff with driving too fast for conditions. They said he was headed north and had passed two auto when the car apparently went out of control, striking the curb and two utility poles and a post before overturning and striking another utility pole.

Christoff suffered multiple abrasions to the face and head.

Western Union Services Here Being Expanded

Western Union has extended its new series of computer-based communications services to Teleprinter Exchange Service subscribers in the Quad City area. B. C. Savage, Western Union manager at the Granite City office, 1435 State street, announced today.

The new Telex Computer Communications Services, or TCCS, are designed to broaden Telex communications capabilities, including the ability to transmit messages faster and more automatically than was possible before.

Telex, Western Union's nationwide direct-dial teleprinter exchange service, can automatically connect a user with any of the approximately 30,000 subscribers for transmitting written messages and data.

"TCCS will be in use nationwide by the end of the year. To take advantage of the service, a user need not install any new equipment or modify existing Telex printers," Savage said.

Simultaneous Messages

Through Western Union computer centers in San Francisco and New York, TCCS enables subscribers to send multiple-address messages to as many as 100 destinations at a time after dialing the computer center only once.

TCCS also permits sending up to 100 different messages to as many as 100 separate destinations through one connection to the computer center.

In addition, subscribers can send telegrams, transmit to TWX (the Teletypewriter Exchange Service of the Bell System) stations, and send Telex messages through TCCS. Savage commented, "The Telex Computer Communications Services are unique in the industry. The broadening of Telex is one of several communications advancements made possible by Western Union's growing integrated data and record communications network directed by advanced computer centers in four locations across the U.S."

Western Union currently provides business, industry, government and the general public with a broad range of record communications services, including leased private services and shared-use computer systems. The company's total revenues in 1968 were \$688 million. Net income was \$22 million.

time, build a new fire station in the vicinity of Bissell and Weaver streets and another fire station in the general vicinity of Fourth street and Grand.

The Bissell-Weaver street station would protect the north end of the community with the report providing protection for the southern portion of the city, the report states. The plan suggests a site of two acres as "more than adequate for these fire stations and would provide a degree of latitude for landscaping future expansion."

Estimated cost of both stations is fixed in the plan report at \$350,000, part of which might be financed under the Neighborhood Development program. The remainder would need to be raised through issuance of general obligation bonds, the report says.

Two Major Provisions

Generally, the comprehensive plan and the accompanying land use and zoning proposals contain two major provisions of land use: (1) consolidation of residential development and (2) limited commercial development.

Other public members include Robert Sabin, Arlington Heights, and Donald Schaeffer, Evanston.

The commission is to report to the General Assembly by Feb. 15, 1971.

TRAVELING BY AIR? CALL HOLIDAY SERVICE, 452-3131

The plan also recommends that the commercial uses along Madison avenue be concentrated in a centrally located, commercial area which would be accessible to both residents of Madison and Venice. A heavy commercial area is proposed immediately south of the present commercial area. Three other small commercial areas also are suggested to be used as neighborhood convenience shopping centers, strictly supplementary to the central shopping area.

The plan suggests that "in the future the two communities should encourage the linear development of commercial uses (along Madison avenue)." The two communities must endeavor, the plan states, to apply their zoning ordinances to restrict linear development of commercial property along the arterial and collector streets in the communities.

Residential Density Increased

An increase in the density of residential patterns within both communities also is urged in the plan which points out that "since residential land of the two communities is at a premium, the residential land that does exist must be used efficiently and effectively by the municipalities; therefore, residential densities must be increased."

The plan report calls for active citizen participation in carrying out the planning program, noting that such participation is "essential to the realization of community-wide goals and objectives."

Citizen activity in community development can foster public understanding, support and acceptance of plan proposals and can provide local government with a basis for decision-making and an assessment of public interest in vital community issues, the report asserts.

"It can be of assistance in soliciting widespread support for bond issues; it can serve as a catalyst to bring about legislative reform measures; and it can enlist local government support for specific projects and programs," the plan report continued.

Citizen Aid Urged

The report recommends that Venice and Madison establish citizen action committees as necessary on vital community development issues to serve as a fact-finding body in the study of problems, to offer alternative solutions and to assist in the definition of needed policy changes.

Neighborhood Improvement associations also should be formed to promote and implement the plan in specific areas, the report states, noting that such associations can lend assistance in determining problems, assign priorities and actively seek solutions such as sponsoring a clean-up, paint-up, fix-up campaign.

Radar Charges Filed

Radar-based speeding charges were filed at 26th and State streets at 12:40 and 12:50 p.m. Friday against Elaine Emring, 4724 Lake drive, and Carl Wallace, 24124 Delmar avenue. A radar charge was placed against Mary Dowdy, 2611 Cayuga street, in the 2500 block of Madison avenue at 12:23 p.m. Friday.

John Maeras on State Insurance Commission

John Maeras, 1608 Elizabeth street, Madison, Madison county treasurer, has been named by the minority leader of the Illinois House of Representatives John P. Touhy, to serve as a public member on the State Property Insurance Study Commission.

The commission was created by the legislature this year to study alternative means of getting insurance for state property.

It will conduct a survey to determine the benefits that might come from the state becoming a self-insurer of state-owned real and personal property. At present, the state purchases insurance coverage from commercial insurers.

Maeras said, "This is a new idea in insurance coverage. Fourteen other states are now self-insurers. It is claimed by some that a switch to this policy would save Illinois \$1 million a year."

Serving with Maeras are Representatives William J. Cunningham (R, Pinckneyville), David Reppert (R, Mt. Prospect), and Otis Collins (D, Chicago). Other public members include Robert Sabin, Arlington Heights, and Donald Schaeffer, Evanston.

The commission is to report to the General Assembly by Feb. 15, 1971.

Webb-Hauptman Nuptials At Sacred Heart Church

The wedding of Miss Kathleen Marie Hauptman, a daughter of Mr. and Mrs. Joseph M. Hauptman, 2609 Center street, and Jerry Eugene Webb, whose parents are Mrs. Jean Scott, 4513 Vine street, and the late Jerry Webb, took place Saturday evening at Sacred Heart Catholic Church.

Rev. Joseph Enright heard the vows of the couple at 6 o'clock, and a reception followed at the American Legion Hall.

The church was decorated with altar bouquets of seasonal flowers. The bride wore a floor-length gown of chiffon over tulle. The A-line skirt and Empire bodice were trimmed with Venice lace and the train draped softly from the back. A veil of imported illusion was held in place with a satin and pearl headpiece, and the bride carried a cascade bouquet of white daisy poms and ivy.

Miss Carol Ann Hauptman was the bride's only attendant. She was dressed in an Empire gown of French blue chiffon. Her flowers were poms poms in

autumn shades of bronze and gold arranged in a nosegay. James A. Webb was best man, and John Stroud and Rusty Barton served as ushers.

The former Miss Hauptman, a graduate of Granite City high school, is employed at the Granite City Trust and Savings Bank. Mr. Webb is in military service and will be stationed in Germany where his bride will join him early in the spring.

The rehearsal dinner was given Friday evening in the home of Mr. and Mrs. Kenneth Scott.

Eighty women of District V, Garden Clubs of Illinois Inc., attended the annual Presidents Council Day luncheon at St. John United Church of Christ on Nameoki road Thursday.

The address of welcome was given by Mrs. Earl Glenn, president of the Gardenaires, and Mrs. William Stafford, Lansdowne Club, East St. Louis, responded.

MUD AND FUMBLES marred Halloween on the Granite City high school gridiron, but it was an otherwise happy evening for the Warriors, 24-6 victors over Quincy. The ball can be seen near a player's foot at the extreme right. No. 33 of GCHS in the background is Jim Greenwald.

FREQUENT TASK Friday night was cleaning the football with a towel. The chore is shown in progress along the sidelines during a pause in the Granite City-Quincy contest.

WARRIOR DON HARRIS (11) was an effective ball carrier in the 24-6 win over visiting Quincy. Here he is shown being slowed up by an enemy tackler while another Quincy defensive team member approaches to fend a hand. Harris scored once and Jim Greenwald tallied three TDs.

Madison Brings Home 22-8 Win, 5th League Championship

Madison became the Midwestern Conference champions by blasting the Shells 22-8 at Roxana Friday night. MHS is 4-0 with one game remaining, a visit by Bethalto Friday, Nov. 8; runnerup Roxana has a 3-2 league record.

The championship is Madison's fifth since joining the Midwestern Conference in 1952. Last year, Al Vonder Haar's first season as coach, the Trojans shared the title laurels with Dupo and Bethalto. Trojans also wore conference crowns in 1965, 1967 and 1961.

On Madison's second play from scrimmage Friday, Dwayne Shaw tore loose to dash 89 yards for a touchdown—and that's when Coach Vonder Haar began to worry. **Almost Peaked Too Soon**

"I was afraid we would peak emotionally too early. It can happen to any team."

"With a quick touchdown early in the game, a team can easily have a lapse and mentally miss the next part of the ball game—unless you make another score the next time you have the ball. Of course, we're always trying for a touchdown."

PRESS-RECORD SPORTS

Page 6 Mon., Nov. 3, 1969 Granite City PRESS-RECORD

but right then I was pushing hard to keep the momentum." Momentum was maintained to an extent, although MHS did not add to its six-point total (the point-after-touching kick failed) until the third period.

Vonder Haar commented to the Press-Record, "We had a good first quarter. We didn't score any more; a couple of penalties and minor miscues held us back. But generally we controlled and moved the ball—like the old Ohio State saying, 'Four yards and a cloud of dust.'"

Shells Take Halftime Lead

"Then in the second quarter, we bogged down. We were stymied."

Worse than the Trojans having a "bogged down" offense, Roxana in the second quarter tallied a touchdown on a 35-yard pass play from Quarterback John Peters to Gary Maze.

The Shells converted two points on a run by Rick Sims and possessed an 8-6 lead over Madison at halftime.

"Before the game," the Trojan coach related, "I told the boys that if we were careful about fumbles and penalties, we would win. That's what we did; no fumbles and only five penalties for 40 yards—our lowest penalty total all season."

Ackers, Defense Sparkle

"During halftime we just

went over the basics of a football game. The players regrouped themselves. The defense sparked."

Roxana was protecting the outside and giving us the inside run, so we took it. Willie Ackers ran it six times in a row. He marched the length of the field in five carries."

Ackers ran 77 yards to a TD in the third quarter and culminated his fourth-quarter one-man march with a 13-yard TD dash.

Harold James and Shaw, each ran two-point conversions after the touchdowns to help provide the 14-point victory margin.

The evening was Ackers' best for rushing; in nine carries he gobbled up 172 yards. But was it really a 22-8 score? MHS isn't completely sure.

Fourth Trojan Touchdown?

In the game's final moments, the Trojans once again entered the Roxana end zone with the ball. Flags were thrown during the play, indicating a possible penalty, so the officials did not signal that a touchdown had occurred.

In the excitement related to

the game clock running out of time, the officials did not resolve what had taken place.

If the penalty was against Madison, Madison should have been penalized and given opportunity to run the play again. If the flags were against Roxana, a touchdown could be awarded to Madison.

The Madison high school athletic department may question the Illinois High School Association's judgment on the incident, perhaps changing the final official score to 28-8.

Madison made 12 first downs and rushed for 338 yards. It attempted five passes and completed none, and punted four times, averaging 22.5 yards.

Roxana's seven first downs came from 91 yards rushing and 90 yards passing. Of 17 throwing tries, five were complete and two were intercepted. Two Shell fumbles were lost, five penalties totaled 30 yards and five punts averaged 29.6 yards.

Braves Stop Chiefs

20-6, Gators Cheek Up North Jr. High

Coolidge won 20-6 at Prather and Grigsby shut out North of Alton 20-0 at the GCHS field in junior high school football Thursday.

North held the Gators to a 0-0 score at halftime but in the third quarter John Hankins blocked a punt, scooped up the ball and dashed 25 yards for a TD. Gary Lively ran the conversion.

For the Gators in the final quarter, Dave Macios broke loose off-tackle for a 39-yard TD; Lively again converted with a run for a 16-0 score. Clay Winfield passed eight yards to Danny DeRuntz in the end zone and Winfield threw to Danny Woods for two points.

A 35-yard pass completion to Greg Becker then set up Winfield to score on a 16-6 score. The after TD pass from Winfield.

Coolidge's Gary Asadorian gathered in the opening kickoff, aided by several good blocks, went 70 yards for a touchdown. Jon Stagner ran the conversion.

The next kickoff was fumbled and the Braves' Steve Ashby recovered on the Prather 20-yard marker. Several off-tackle plays moved the ball to the four, where Stagner went up the middle to paydirt. A conversion run failed, leaving the score 14-0.

In the second period, Stagner ran 70 yards off-tackle for a TD. The conversion run was stonewalled.

Each team advanced to the enemy 20-yard-line during the third period but there was no scoring.

Prather Quarterback Don Lloyd sustained a 55-yard scoring drive with passes. For the day, he completed six of ten passing attempts. Dan Carr received a five-yard touchdown throw and the two-point pass missed.

Glenn Koblum and Ray Lybarger of Coolidge were cited for their defensive performances.

Sophomores Gain 26-12 Win
Sophomore football Warriors won 26-12 at Cahokia Thursday.

Greenwald, Harris Pace 24-6 Win Over Quincy

Replacing injured regulars, Quarterback Don Harris and Fullback Jim Greenwald led the Warriors to a 24-6 Halloween night victory over the Blue Devils of Quincy at the muddy GCHS field.

The season is now complete except for a title-deciding visit to Belleville West Friday night. GCHS is 4-1 in the Southwest Conference and 5-2 overall.

The Warrior lineup against Quincy was essentially the same that has brought Granite City its first clear opportunity in years for a conference championship, and the same which was edged the week before 14-13 on another muddy field at Edwardsville.

Warrior quarterly leads Friday were 12-0, 18-0 and 18-0 with each team scoring fourth-period touchdowns.

The difference may have been Harris and Greenwald, who appeared to be custom-made for the field conditions.

Difficult to Tackle

Greenwald plunged for a bouncing-galloping gait. His speed is not fierce and his moves are not dumbofounding. The only time he glides with the smoothness of a sprinter is when he slides. But his running style leaves tacklers with no easily apparent hand-hold. On Friday night, he became a 205-pound bouncing ball of mud, scoring three TDs.

The 138-pound Harris during one play was caught all alone in the backfield by Blue Devil (six-foot, six-inch, 214-pound) Bruce Aton, who picked up and carried the Warrior quarterback ten yards.

Passes, Fakes Effective
Harris connected on two long passes (29 and 25 yards) in his five completions on nine attempts, although not establishing the steady long-bomb threat injured Quarterback Dave DeRuntz had posed.

But Harris was convincing enough that when he raised the muddy ball above his head and then dashed for running yardage, he left the Blue Devils faked-out and slipping in the mud behind him.

Harris also was a starter at a defensive safety position. **16-0 Edge in First Downs**
Granite City totaled 16 first downs, 205 yards rushing and 82 yards passing, punted three times, averaging 34.3 yards, lost two fumbles and was penalized 65 yards.

Quincy, with 45 yards rushing and 81 yards passing, recorded nine first downs. On 17 passing attempts, the Blue Devils connected nine times with three interceptions. Their punts averaged 33.0 yards. They fumbled twice and were penalized 40 yards.

Granite City received the opening kick off and marched from its own 27-yard marker to a touchdown on nine plays.

Harris ran the last 17 yards into the end zone. The extra point kick missed.

Long Runback by Harris
Quincy moved for one first down and then punted to the

GC 14-yard-line, where Harris grabbed the ball and ran to the Quincy 38.

Successive 15-yard penalties against each team and rushing gains resulted in a first down. Then, on a fourth down and long yardage play, Harris passed to Dave Melzer, who caught the ball and then fumbled. Don Haddix recovered two yards from the goal line.

Greenwald punched over for the TD with four seconds remaining in the initial quarter. A two-point conversion attempt failed.

89-Yard TD March

The Blue Devils gained a couple of first downs and punted, enabling the Warriors to begin another touchdown drive from their own 11.

Fifteen rushing plays moved the ball to the Quincy 30. Dave Melzer made a diving, fingertip pass reception, landing two feet from a goal.

Greenwald plunged for the touchdown with 56 seconds remaining in the half. Mike Wilson caught a two-point pass but it was nullified due to an illegal receiver downfield. A second aerial conversion attempt was short.

Quincy went nowhere and the half ended with Granite City on top 18-0.

Penalty Aids Drive

No one scored in the third quarter, and Quincy's fourth-period drive began when it received a Warrior punt at mid-field.

Ground plays and a pass interference penalty on Granite City advanced the line of scrimmage to the GC 10.

Quarterback Steve Kroeter flipped a pass to Rome Neiders for the Blue Devil touchdown. Quincy fumbled on the conversion attempt.

The Blue Devils booted an onside kick which hit the foot of a Warrior, and Quincy recovered at mid-field.

Wilson Intercepts
On the first play from scrimmage, Warrior Mike Wilson intercepted a pass and rambled to the Blue Devil 15.

Two plays later, Greenwald powered four yards for the final touchdown. The passing conversion was incomplete.

Mosenthein Island

Nor Open to Hunters

Don Hastings, state conservation officer, advises that he is still getting many inquiries about hunting, especially deer hunting, in the vicinity of the Chain of Rocks Canal and Mosenthein Island.

Mosenthein Island is in Madison County, just north of Illinois Island, but it is privately owned and the owners have asked that no one hunt or trespass on it. Even though hunting was done on it many years, the ownership has changed hands and the new owners do not allow hunting, he said.

"As for Garabot Island or the land between the canal and the Mississippi River, most of this is privately owned farms and most do not allow hunting. There is limited U.S. government ground on the extreme north and south tips next to the river, but hunters are warned to be sure of the boundary lines before hunting—and to be sure and get permission before entering any private lands."

Hastings suggests that deer hunters invest in a county plat book that has detailed maps of the entire county and tells who owns every piece of ground. "Plat books are available as a service of the Farm Bureau from its office at 900 Hillside avenue, Edwardsville, and cost approximately \$3 each, the supply may be limited. Be sure you know where you are hunting all of the time, and that you have current permission to be there," he concluded.

Four minutes and five seconds remained on the clock. Quincy made a first down and then was forced to punt.

As the game ended, Granite City controlled the ball in Blue Devil territory.

MOMENT OF TRUTH. Will the warrior runner or willie hands slip off the muddy ball carrier? This was the question on many players during the 24-6 GCHS non-conference win.

Candy Sale

YMCA 'Earn-a-Membership' Campaign Starts Wednesday

The annual "Earn a YMCA Membership" candy sale will begin Nov. 5 and continue to Nov. 22, with an orientation meeting for interested youngsters at 7:30 p.m. on Wednesday at the YMCA, it was announced today by Charles Hasse, youth director.

Youngsters or parents who are unable to attend Wednesday's meeting may check out their candy at the Youth Office during the regular hours which are 9 a.m. to 5 p.m. on weekdays and 9 a.m. to 4 p.m. on Saturday, Hasse said, explaining that a parent must accompany a youngster when they check out the candy.

To qualify for a full year's membership, a youth must sell 37 cans of candy, with each can selling for \$1.

Explaining the sale, Hasse said, "If you now have a

YMCA membership, you may sell candy to earn a renewal, which would become effective at the time your present membership expires.

"Our salesmen receive only credit toward their membership—No cash. If you sell less than the total needed for your membership, you will be given credit for what you have sold and may pay the balance in cash to give you a full year's membership."

The candy is in five varieties, including cans of party nuts, butter toffee, peanut brittle, honey flavor itty-bitty and peanut butter flavor itty-bitty.

Disorderly Charge

Arrested at Kroger grocery store at 6 p.m. Thursday, Beverly Huber, 30, of Rural Route 2, was charged with disorderly conduct.

Chamber Members to Plan Goals for Year

Members of the Chamber of Commerce of the Tri-Cities will confer at 10 a.m. Wednesday, 2 p.m. Thursday and 4 p.m. Friday at the Chamber office to help plan the "program of work" for the 1969-70 year.

Members will have an opportunity to express their views on community needs as well as to learn of projects already anticipated, Carl E. Mathias, chairman of the Program of Work Committee, has reported.

He adds, "The most important phase in developing the year's work of the Chamber is to be sure that we have obtained the ideas of all members. The newly-elected officers want to direct the efforts of the organization toward those things most meaningful to its members. A number of pending projects are to be continued, as well as some new activities started."

Two Cars Damaged

Front end damage to a car driven by Roy J. Wiggins, 100 Washington avenue, Madison, and damage to the left rear of an auto driven by Cecil Dillard Jr., East St. Louis, was caused by a collision on State street between Sixth and Seventh streets about 3:50 p.m. Thursday, Madison police reported.

The accident occurred when a Dillard stopped for a line of traffic and was struck from the rear by Wiggins' car, officers said. Wiggins was ticketed on a charge of driving with an expired driver's license and is to appear for a hearing Nov. 18.

She received the "Masquer Award" as the best actress of the season for her performance as Lili in "Carnival." She has also appeared in productions of "Thousand Clowns," "Dirty Work at the Crossroads" and "A Funny Thing Happened on the Way to the Forum," in addition to directing "The Rainmaker."

'Yule Mail Call' Listing is Growing

A local mother whose sailor son will spend his second Christmas away from home this year and her daughter, living in Germany with her serviceman husband, will be away for the first time, contributed their names to this edition of "Yule Mail Call."

Also appearing in today's listing of Quad-City military personnel are the two sons and nephews of a Madison man, and a Granite City soldier, recently inducted into the Army who would like to hear from his friends.

Churches, social and service groups are invited to submit the names and addresses of local servicemen, in addition to those contributed by relatives and friends, for inclusion in the newspaper's pre-Christmas service project.

To ensure delivery of cards, letters and packages by Christmas, it is important to send in the names as quickly as possible.

Those contributing to Yule Mail Call are asked to mail the information on postal cards or letters, or write the address on a slip of paper and bring it to the Press-Record office, 1815 Delmar avenue.

Name, rank, serial number and full address, including FPO and APO, should be submitted. When the area of service is noted, the information will be listed in parenthesis following the mailing address.

Mrs. Ruby Gibson, 2328 Logan street, whose son was born and reared in Granite City and graduated from the local high school, said in a letter that the serviceman "would very much like to hear from all his friends."

Pvt. William L. Gibson, currently based at Fort Ord, Calif., was employed at McDonnell-Douglas Aircraft Corp., St. Louis, before entering the service in September.

Utah Downs, 64 Garcesch Homes, Madison, submitted the names of his two sons, Albert E. Downs, serving with the U.S. Army at Brunswick, Me., and Carl E. Downs, who is based in Berlin, Germany, with the 28th Military Police Company.

A nephew of the Madison resident, Pfc. Ricky L. Householder, currently serving in Vietnam with the 101st Airborne Division, also is included.

Mrs. Jean Dowdy wrote that her son, Larry, will spend his second year away from home at Christmas time on board the USS Independence.

Her son-in-law, Sp4 Allen L. McClure and daughter, the former Linda Conner, will be in Germany for the Yule holidays. It is the first Christmas that

Local residents are invited to include the servicemen of their Christmas mailing cards, letters or packages, thereby helping to brighten the coming holiday season for military personnel who are away from their homes and families. Early mailing is recommended.

Mrs. McClure will spend away from home.

It is hoped that publication of Yule Mail Call lists will encourage Quad-City residents to add the local military personnel to their Christmas mailing lists and send greeting cards, letters or packages.

Several groups of school children, cub scouts and other organizations have selected servicemen from the Press-Record lists in previous years to send gifts and cards, in the hope the thoughts from home will help to cheer the soldiers, sailors, marines and airmen who are away from their loved ones at the holiday season.

Program for the paid of concerts will be: Rosini, Overture to "La Cenerentola," Mozart, Symphony No. 33, K. 319 and Scriabin, Symphony No. 2.

Gateway Council to Consider Expansion

A proposed amendment to by-laws of the East-West Gateway Coordinating Council that would expand the board of directors will be submitted to the council's general membership at the annual dinner meeting at 7:15 p.m. Thursday at Augustine's, Belleville.

The proposal would add six regional citizens to the board, two chosen by Mayor A. J. Cerasi, the governors of Illinois and Missouri and the Madison county board of supervisors.

The regional citizens would represent business, labor, education, religious and Negro community sectors.

The council membership, made up of representatives of more than 100 local governments in Illinois and Missouri, also will be submitted a proposal to increase the per capita contributions from participating cities and counties by three cents, from five to eight cents. An additional \$63,600 would be raised by the increase to offset a potential budget deficit for the 1970 year.

The council coordinates planning and federal funding of community and regional improvements.

ABOUT THIS QUESTION:

"Regardless of how many items of jewelry, watches, neckties, bracelets, precious stones, gold and furs may be stolen, does the homeowner and Tenant Policy cover up to \$500 of the total loss? Should valuable jewelry, and furs be insured to full value by separate 'all risk' insurance?"

PIRATE THEME AT CUB PACK MEETING

Bob James, registrar for Cub Pack 17, was in charge of the Wednesday night pack meeting, held at Marshall school. Cubmaster Harvey Kief was unable to attend. The opening flag ceremony was by Tom Duke, Mark James, Greg Stratton, George Yeager, John Clarke, Ricky Watkins, Mark Duke and James Stockwell of Den Three; Mrs. Mary Yeager is their den mother.

James introduced parents of boys new to the pack, Mrs. Martha Whitehead, Mrs. Mary Stratton, Mrs. Violet Harrison, Thomas Gavin and Ronald Dillard. Another guest was Miss Vickie Stockwell, sister of James.

A "space derby" will be held next month. Members were in costumes for a pirate theme and paraded around the room. The costumes had been made in part at the den meetings.

James introduced committee members Lou Rohlfing and Bob Beach, and Ralph Shevick, who will serve as judge for the "space derby."

The "cubby award," presented each month to the den with

the most parents attending, was awarded to Den Three.

Boys and awards received were: John Shable, gold arrow point; Greg Colvett, gold and silver arrow points; Buddy Watkins, silver arrow point and dener stripe; and Randy Pench, assistant dener stripe. Webelos recognition was given to Tippy Bugg and Mark James.

James reported the need for a Webelos den leader and also for additional parents to participate in the scout program. Refreshments were furnished by mothers of Den Two and were served in the cafeteria by Mrs. Pat Shable, Mrs. Norma Colvett, Mrs. Arline Watkins and Mrs. Mary Yeager.

A display of pirate items each den had made during the past month was viewed by the 68 persons attending. Pirate ships, swords, eyepatches and flags were shown. There also was a display of jack-o-lanterns.

CUB PACK 46 MEETS AT NAMEOKI SCHOOL

Cub Pack 46, sponsored by the Nameoki PTA, met Wednesday night at the school. Cubmaster is John Slay. The opening ceremony was

Pirate plays were given by Den Two, directed by the den mother, Mrs. Helen Miller, and Den Four, led by the den mother, Mrs. Carolyn Moske. Three new members were taken into the pack as members of Den Two—John Selth, William Kefalas and Greg Laub.

The meeting closed with a verse by Den Two and all present joined in singing "God Bless America." Mrs. Moske and Den Four served refreshments.

Other dens represented at the meeting were Mrs. Helen Slay's Den Six, Mrs. Dolores Zoval's Den Seven and the Webelos den, led by Elmer McKelley.

Theme for the next pack meeting on Nov. 25 will be "Folk Lore." Plays dealing with folk characters will be presented by each den.

Vandals Damage Homes, Autos

A wide variety of vandalism to homes and autos was reported to Granite City police during Halloween on Friday night and the next day.

Vandalism victims reported included Carolyn Wrigley, 2700 Denver street, gray paint sprayed on 1963 auto at Cayuga street and Rock road; Mrs. Riggs Weston, 2913 Wayne avenue, rear tire of 1963 car slashed at Namecki Village; Tony Doniff, 2800 Grand avenue, right front tire of 1967 auto punctured at that address; an Ed Kube, 3008 East 23rd street, paint thrown on door and door facing there.

Food and garbage were thrown on the floor at the home of Pauline Holmes, 2605 Emree street, Friday. Her telephone wire was broken, and a living room lamp was tied to a door in such a way that the lamp fell and broke when she opened the door.

On Friday night, vandals threw a brick into the apartment of Cathy Carney, 2127 Grand avenue, threw an object through the picture window at the home of Jerry Abernathy, 2100 Wilson avenue, and broke bottles, scattered paper bags and steel drums, and ransacked a storage shed at the Tarpo Packing Co., 1428 Edwardsville road.

Robert Knight, 2654 East 24th street, reported Friday that salt had been poured into the gasoline tank of his 1965 auto.

Gold paint and eggs were thrown onto the north side of the home of Warden Whitford, 2002 Jefferson avenue, and white paint onto Whitford's 1957 auto Friday night.

A sharp object was used to puncture two tires of the parked car of Julius Conway, 2551 State street, and a rear tire on each of two autos of Joseph Chandri, 2615 Edison avenue, was slashed Friday night.

Large rocks were thrown through five windows and a screen at the north side of Marshall grade school on Halloween night.

Vandals broke windshield wipers, a radio aerial and a citizen-band radio antenna on a parked 1946 auto at the Reeves concrete plant and caused \$40 damage to materials in a storage shed there Friday night.

The windshield and rear window of the parked 1961 auto of Jeanette Rusick, 2711 Idaho avenue, were broken there Friday night.

On Saturday night, a vent window was broken on a parked 1962 station wagon of Norman Sanders, 4907 Kirkpatrick Homes, at the housing project.

There were scattered reports of eggs thrown against residences on Halloween.

Strikes Sign Post
When he swerved his auto to avoid another vehicle, an auto operated by Chester H. Heidbrink, 4933 Willow lane, skidded and jumped the curb on the 3400 block of Namecki road, striking a sign post. The motorist reported Thursday. The sign post was not damaged, but minor damage occurred to the left door of the car, he said.

Two Fach Charges in Glue-Sniffing Case

Joseph Nathaniel Johnson, 17, of 117 Abbott street, Venice, was named on four charges Friday after he and five other youths, four of them juveniles, were accused by police of sniffing glue and paint thinner.

Johnson was named on charges of contributing to the delinquency of minors, the use of a weapon, sale of intoxicating compounds and use of intoxicating compounds. He was arraigned in magistrate court at Granite City and his cash bond fixed at \$204 pending a Nov. 18 hearing.

Police said they also filed a charge of use of an intoxicating compound against Donald Soden, 17, of 83 Venice Homes. His bond was set at \$102 cash, also pending a Nov. 18 hearing.

The cases involving the four juveniles have been referred to county juvenile authorities, police said. Members of the group admitted they purchased a can of paint thinner Wednesday night and went to Johnson's home where they sniffed the compound.

Police learned of the incident and went to the Johnson home about 1:30 a.m. Thursday, arrested Johnson, Soden and a 16-year-old boy and ordered the parents of other boys to bring them to headquarters later. Police said the house was littered with plastic bags that apparently had been used for sniffing the thinner.

Two Suits Filed Over McCambridge Crashes

Two lawsuits growing out of traffic accidents occurring on McCambridge avenue in Madison have been filed in the circuit court at Edwardsville.

Rose Sever asks \$20,000 damages in proceedings against Sharon R. Kinneman as the result of a collision at McCambridge avenue and Edwardsville road Nov. 1, 1968. The complaint alleges that the plaintiff, driver of a car involved in the crash, suffered permanent injuries.

It is alleged she was driving north on McCambridge and that the defendant was southbound on McCambridge near Edwardsville road. Suit for \$15,000 damages was filed by Glenda Ballew against John Louis Dale as the result of an accident on McCambridge at Third street April 6. She states she was a passenger in an auto involved in a collision with Dale's car and that she suffered serious injuries.

Madison Avenue Arrests

Speeding charges were filed on Madison avenue in Granite City Saturday and Sunday against Paul Berkich, Route Two, Godfrey, John Obucina, 3325 Palm avenue, Leon Bruce, 204 Second street, Madison, Merlyn Ingram, 1531 Fourth street, Madison, and Anthony Divietri, 2804 Dale avenue. Donald Dugan, 1295 Joy avenue, was charged Friday with speeding at 12th street and Edwardsville road.

The serving table held a miniature scarecrow. Cookies and apple cider, furnished by mothers of members, were served to the 15 young people attending.

Kimbrell announced that a trip to Camp Neeter, scheduled for the Nov. 8 weekend, has been postponed to a date to be announced later. The group will meet again Nov. 30 for a monthly get-together.

Auto Hits Utility Pole, Then Speeds Away

A red and white auto, heading east on 20th street shortly after midnight Friday, passed another car on the 20th street railroad tracks with the first driver losing control of the vehicle, striking a utility pole, located about 100-feet from the tracks.

Although the car was damaged on the left side, the driver left the scene. Police found three open beer cans and a partially full bottle of liquor at the scene of the crash.

Policemen Friends and Protectors—Powell

The liberty America sought as a young nation and which it seeks to preserve today "is not the liberty to hurt stones and beer bottles, to taunt and harass police," Secretary of State Paul Powell today told members of the Illinois Police-men's Benevolent and Protective Association at their meeting in Springfield.

A society in which men recognize no checks upon their freedom soon becomes a society where freedom is the possession only of a privileged few," he said.

Powell said it is time for forces of law and order to capture the initiative in the battle against crime and violence. "The job of keeping our nation safe is a job for all of us, but mostly for those of you who wear a badge."

"The values we hold high in the past, that are being flaunted by many of our younger generations, were good, honest values and we must keep them," Powell said.

"We need a return to those values, to re-educate the average good-hearted, taxpaying, God-fearing citizen the idea that you—the police—are his friend and protector, not the enemy aggressor."

"Those who wished to see our police institutions destroyed have done their work well, but thank God there are enough level-headed, straight-thinking people to see through these paragon of unwashed virtue."

Mishap on Cleveland

Lady Professors Expert In Biological Science

At least three women professors on the biological science faculty at SIU-SW take the "man's world" theory with a grain of sodium chloride.

Professors Nancy Parker, Annette Baich and D. Gertraude Wittig represent the distaff side of science in the department and are enjoying the odds. They reason: Aside from the presence of hairspray, perfume and purses, a professor is a professor by any name at SIU-SW.

With a brilliant piece of female logic, they explain their intervention in a professional career area dominated by men. They say: If a woman's place is in the home—and home is where the heart is, and their hearts are in biological sciences—then why say they don't belong?

Mrs. Parker, Mrs. Baich and Miss Wittig represent three different aspects of professional women and have contrasting viewpoints. Mrs. Parker is a wife and mother; Mrs. Baich, a wife; and Mrs. Wittig, a bachelorette.

Competitive Edge
Mrs. Baich, associate professor of bio-chemistry, said many of the better science schools have only recently begun recruiting female professors. However, she experienced difficulties only as an undergraduate, and believes she has a competitive edge over male counterparts now that she is a professor.

Miss Wittig commented that she also experienced no difficulties, but noticed that male subordinates did not particularly care for female supervision. She said professional careers in science for women are relatively new, and now for a variety of opportunities.

Lady Professors Expert In Biological Science

She singled out her specialty, electron microscopy, as an example. "The percentage of women is unusually high in this area," she contends, "because women have a special talent for doing meticulous work over a long period of time."

Miss Wittig said more women are becoming career-conscious and are aware that professional training enables them to work both before they have children, and after the children are adults.

Secret—Budget Your Time
Mrs. Nancy Parker, associate professor and wife of department chairman Richard Parker, has a special set of circumstances with which to cope—being a wife, mother and college professor all at once.

With two children, ages six and four, Mrs. Parker says the key is budgeting time. She has always wanted to do something professional, but at the same time recognizes her responsibility to her family.

To cope with the situation, she establishes a list of priorities. She readily admits that sometimes traditional house duties suffer. Mrs. Parker commented that while many women are satisfied to be just housewives, others would like a career also.

Despite minor differences of opinion, the three professors reach one conclusion: Girls need to have the opportunity to choose between domestic life and a career. They also say that science is one of the few areas where salaries are comparable for both sexes.

On the question of whether science in America is a man's world they merely point out that in addition to talent, a woman has intuition on her side.

MORE ABOUT Kennedy

mary and general election balloting.

Expiring Court Terms

This supports most political observations in Democratic circles that all county officeholders whose terms expire next year will seek re-election. These include Miss Eulalia Hotz, county clerk; Wilbur Trimpe, superintendent of schools; County Treasurer John Maers and Sheriff George Musso.

Since Musso and Maers are unable to succeed themselves in office under present state laws, Maers appears certain to seek the sheriff's job on the Democratic ticket, and Musso has said publicly that he will run for treasurer if he again receives organization support.

On the Republican side, however, the names of potential candidates for county office are being kept pretty well under wraps, although members of the county committee have held several discussions on a county ticket lineup.

Charles Walters of Alton, chairman of the Republican County Central committee, said he expects no definite endorsements by the committee until after the Nov. 18 election of two delegates to the Illinois Constitutional Convention. He said Republicans have been devoting considerable time to the con-con election and probably won't line up a county ticket until after Nov. 18.

Predicts Strong Bid

Walters predicted a strong bid and a well organized Republican drive for county offices in next year's general elections, noting that the campaign of U.S. Sen. Ralph T. Smith of Alton for re-election to the senatorial post will activate lively Republican interest in the campaign. The fact that GOP candidates captured two county posts in the 1968 elections—the state's attorneys office and the cornerer's office—also has added to revitalizing the Republican party in Madison county and will spur the party to even greater efforts next year, Walters said.

While no official announcements of candidacy have yet been made for the upcoming primary filing period, Walter T. "Buck" Simmons, a Democrat now serving as a judge in the Fifth District Appellate Court by appointment, was reported planning to begin circulation of petitions next week for his bid for election to the clerk's post. Simmons, who lives in Venice and is chairman of the County Democratic Central committee, was appointed to the clerk's post early this year following the death of James J. Laughlin.

Four Years Remain

McLaughlin was elected Appellate Court clerk in 1965 for six-year term. The remaining four years of the term therefore will be subject to election of a clerk next year.

The Democratic campaign for the early March primary will be spearheaded by an inter-party fight for nomination of a candidate for the U. S. Senator's post. That office also is a vacancy created by the death in September of U. S. Sen. Everett M. Dirksen. Smith won the interim appointment to the office but must win re-election if he is to serve the remaining four years of the term. Dirksen had been re-elected in 1968 to a six year term.

The Democratic primary fight for the U. S. Senator's nomination has been assured following announcements last week by State Sen. Alan J. Dixon (D-Belle Isle) and State Treasurer Adlai E. Stevenson III, that they will be candidates for the nomination in the March balloting.

The Madison and St. Clair county Democratic committees (24th Congressional District) and committee chairmen of the 21st Congressional District have endorsed Dixon. The state senator also has the support of Cong. Melvin Price (D-East St. Louis), and the support of the strong St. Clair county Democratic organization headed by East St. Louis Mayor Alvin G. Fields, who also is a member of the State Central committee.

Appellate Post Open

Elections and retention balloting in the judiciary system also are expected to attract considerable local interest by both parties next year. The term of George J. Moran, judge of the Fifth District Appellate Court, expires in 1970 and that post will be subject to election.

Judge Moran was elected to the Appellate Court judges elected in 1964 upon reorganization of the judiciary system. While the judgeships are for ten year terms, it was necessary to stagger expiration dates. Judge Moran drew the shorter term of six years.

Election of an Illinois Supreme Court justice for the Fifth District, which is the same as the Appellate Court district, also will be necessary next year, also fill the vacancy created by the death recently of Byron House of Nashville.

Some political sources say that Appellate Judge Joseph Goldenher of East St. Louis is considering his candidacy for the Supreme Court post. Judge Goldenher's present term on

Mrs. Myrtle Smith, 69, Former Resident, Dies

Mrs. Myrtle Smith (nee DaMotte), 69, of Sarasota, Fla., a former Granite City resident, and sister of Emilie "Ace" DaMotte, died Saturday night in a hospital in Florida. She had lived in Florida for several years and under a physicians care for asthma.

A graduate of Granite City high school, Mrs. Smith, married Raymond Paul Smith in June, 1918, and they moved to St. Louis to make their home. They have resided in Florida for the past 10 years.

Active in St. Louis Garden Club, the former resident served as judge in several local garden club contests.

Prior to moving to Florida, Mr. Smith operated the Smith Overall Laundry in St. Louis, which services many business places in the Quad-Cities. Two sons, Raymond Paul Smith II and Earl Stanford Smith, have continued to operate the business.

Other survivors include a daughter, Mrs. Frances M. Mott of Florida; 10 grandchildren; and one great-grandchild; another brother, Earl DaMotte of Virginia, and three sisters, Mrs. Martha Haycraft of Carlinville, Ill., Mrs. Irene Schores of St. Louis and Mrs. Lorna Rose Garrett of California.

Funeral services will be conducted at 2 p.m. Wednesday at a St. Louis funeral home.

Mrs. Dora Austin, 75, Dies This Morning

Mrs. Dora L. Austin, 75, of 1137 Pontiac road, was pronounced dead on arrival at St. Elizabeth Hospital at 10:50 a.m. today.

A native of Doniphan, Mo., Mrs. Austin had lived with her daughter, Mrs. Essie White at the Pontiac road address since 1968.

Other than her daughter, she is survived by five sons, Preston Austin of Sikeston, Mo., Lehman Austin of Lewistown, Idaho, William Austin of Granite City, Mo., Eugene Austin of Seattle Wash., and Richard Austin of St. Louis; three other daughters, Miss Gladys Austin of Gering, Ark., Mrs. Eva Alworth of Flat River, Mo., and Mrs. Marie Moore of Riverside, Calif.; two brothers, Eliza and Truman Thom both of Rockford, Ill.; three sisters, Mrs. Pansy Owens and Mrs. Grace Misswonger both of Corns, Ark., and Mrs. Mary Buckley of Reno, Ark.; 30 grandchildren and 22 great-grandchildren.

The Appellate Court Expires in 1972

In the Third Judicial Circuit (Madison and Bond counties), voters will ballot on the retention of three circuit judges—James J. Dixon, Harold R. Clark and Joseph J. Barr. The present judicial system does not require judges to seek reelection in a primary or election, but does provide that their names be submitted every six years for a yes or no vote as to whether they should be retained in office.

Want Senator's Office

At the district level, Democrat leaders are expected to make an all-out bid to return the office of state senator of the 53rd Senatorial District (which includes the Quad-Cities) to the Democratic fold.

President Senator Merrill Ottwein (R-Edwardsville) won the office in a special election early this year to succeed former Senator Paul Simon of Troy who was elected Illinois lieutenant governor in the November, 1968, balloting. The terms of senators in all of the state's 58 senatorial districts expire next year, however.

Incumbent State Rep. Leland J. Kennedy of Alton, whose term expires next year, is a candidate for the senator's post, while State Rep. Horace Calve of Granite City is expected to seek another term in the Illinois House.

The question of filling a vacancy on the board of trustees of the East Side Levee and Sanitary district still is unanswered. The vacancy resulted from the death of Joseph Grant, Granite City. As a result, an election to fill the single seat would have to be called by the Governor and he has taken no action to do so thus far.

Ottwein Suggests Business Improve Public Relations

American business has delivered to society the highest standard of living that the world has ever known, but at the same time has contributed to some of the greatest problems, State Sen. Merrill Ottwein (R-Edwardsville) told a meeting of the Manufacturers' Association of the Tri-Cities Thursday night.

Pointing out that he was "selling life it is," the senator told the manufacturers' group in the Missouri Athletic Club that "many businessmen are shilling their heads in disbelief, knowing they have produced tremendous gains, yet are wondering why the public is turning on them in ever increasing volume and vengeance."

Ottwein told the group that "past service doesn't give perpetual honor . . . business gets no credit for past performance against suspicion of current malfeasance. We have problems of effluence arising from our success."

"As a by-product of the past, and current service, you have contributed to problems of pollution and to a lack of fulfillment in peoples' lives . . . the average assembly line doesn't leave one exactly proud of his day's work."

Senator Ottwein added that slips are showing in public and community relations and said that with some exceptions business hasn't told its story well. As a result, he said, it is passing up great opportunities for serving communities in which they are located.

"One of the greatest reservoirs of trained and educated people we have, the business community, for the most part isn't getting involved in this kind of problem solving," he said.

Business public relations is the art of adapting big business to a democracy so that the people to have confidence they are being well served, and at the same time business has freedom to serve them well, Ottwein added.

Williams was arrested on a complaint signed by the Hill woman charging him with breaking and entering. At the police station, Williams refused to give information for booking. Police said his age is known to be 23 and his last address was at Lee Wright Homes.

Local Youth Stabbed On Lot at State Park

A Mitchell youth was stabbed four times in the back and abdomen and his companion from Pontoon Beach suffered abrasions when the pair was jumped and beaten by a group of seven or eight white youths in the parking lot of a State Park. Rages tavern about 9:15 p.m. Friday.

William Dale Parker, 18, of 633 Barkley street, Mitchell, is in fair condition today at St. Mary's Hospital, East St. Louis, where he was admitted Friday in serious condition with a punctured lung, resulting from one of the four stab wounds. Parker and his companion, Larry Brock, 17, of 4256 Division street, told St. Clair county sheriff's deputies they were attacked by a group of youths on the parking lot of the Cracker Box Tavern, 2258 Black lane, State Park Place. They said their assailants were unknown to them, but believed to be from Cahokia.

No reason for the attack could be given by the local youths. Brock, who sustained abrasions to the forehead and left side of the body, was treated in the hospital emergency room and released.

A short time after the stabbing incident, Charles Easley, 18, of 302 Art street, State Park, reported to Collinsville police that he had been a witness to a fight, which a youth was stabbed.

Easley said that five youths forced their way into his auto and told him to take them to a point as he was driving near 46th street in East St. Louis. The youths forced him to drive the group to a State Park Place to identify the youths, but provided a description of two of his auto and proceeded to the attackers.

Board Declines Then Agrees to Approve Bills

Approval of Nameoki township bills, usually a routine procedure in regular town board meeting sessions, was held up by town auditors during a recessed meeting Friday night because, they objected, Supervisor Harry Briggs has refused to let the town clerk see the township check books.

Clerk Louis Whitsell claimed Briggs has declined to let him see the check books since a controversy developed more than a month ago over payment by Briggs of a \$2000 bill for mosquito spray chemicals which the town auditors had decided not to pay. Briggs has said board members could examine the books during regular office hours. Briggs consented Friday night to arrangements for Whitsell to examine the books and the auditors decided to meet informally — without pay — to sign the bills tomorrow night.

On the suggestion of Whitsell, the board Friday night also agreed that all bills approved for payment out of the town fund in the future would be vouchered. Whitsell told the auditors that some bills have been paid in the past without vouchers, but since he is unable to make a regular examination of the check books he is unable to keep his records through use of vouchers for all outstanding indebtedness.

To Check Gasoline Price
Auditor Robert Beedle suggested that additional quotations on prices for gasoline and industrial oil supplies be obtained for comparison with present costs since the township has been informed its present supplier will raise prices. The township has been buying gasoline and oils from Rich Oil Co.

Whitsell presented a letter from a printing firm which recently supplied the township with printed forms that bore no union label. Briggs objected to the lack of a label. The letter stated that Whitsell had specified a label should be used, when he ordered the forms, that the omission was the fault of the firm and the forms would be reprinted at no cost.

On a motion by Beedle, the board approved total expenses of \$225 for two employees of the general assistance fund, Mary Church and Dorothy Neminger to attend a convention of general assistance workers. Briggs explained that the state provides \$75 expenses, bringing the total expense allotment to \$300 for both employees.

Whitsell also read a notice that House bill 285 approved in the last legislative session has been signed by Gov. Ogilvie and will change the date of the annual township meeting to the second Tuesday of April instead of on the first Tuesday in the past. The annual meeting date has always coincided with the township elections.

Open House next Week At Venice-Lincoln TC

K. Duane Rankin, director of the Venice-Lincoln Technical Center, today issued an invitation to Quad-City residents to visit the adult vocational school during National Education Week which starts next Monday.

Noting that an "open-door policy" is maintained at the school at all times, Rankin said that visitors will be welcome to inspect the facility during the regular instruction periods next Monday through Friday. Classes are scheduled from 9 a.m. to 5 p.m.

"We cordially invite all interested Quad-Cityans to become acquainted with the programs offered at the Adult Day Center," the director said, adding the facility, located on South 4th street, Venice, has been in operation slightly more than one year.

Geese Heading South, Local Hunters Active

The goose hunting season has begun and will end on Sunday, Nov. 30, except in Alexander, Union, Jackson and Williamson counties.

The season is divided into two parts in the four southern counties. The first will begin Monday, Nov. 17, and end Sunday, Dec. 21; the second will be Friday, Jan. 2, 1970, to 3 p.m. Sunday, Jan. 11.

Illinois Conservation Director William L. Rutherford reports that if a quota of 25,000 geese is harvested before Jan. 11, the season will be closed immediately by his department.

Hunting hours are from sunrise until sunset, except in the four southern counties. There, hunters may take geese from sunrise until 3 p.m.

The statewide bag limit is five geese. But no more than two Canada or subspecies, or two whitefronted geese or one Canada and one white front in the aggregate, may be killed. No more than four Canada geese or subspecies or one Canada and one white front in the possession limit of five geese.

Flocks of 50 to 175 Canada geese are moving through Illinois in large numbers, department officials say. According to one report, at least 13 flocks numbering from 80 to 175 birds per flock, were seen near Good Hope and Bloomington on Oct. 15.

Numerous flocks have been seen winging down the Mississippi River valley to north of Rock Island and then fly south to the wintering grounds near Cairo.

Others come down the west side of Lake Michigan and then fly through the Illinois River in the vicinity of Springfield Bay, north of Peoria, and swing south, passing over the Lincoln and Springfield areas.

Large numbers of geese journey down the east side of the Mississippi to the Indiana-Michigan boundary and then head south-southwest to the Crab Orchard National Wildlife Refuge in Carterville. These flocks fly over the Effingham, Champaign and Mattoon areas.

Most geese waste little time in reaching the wintering area. They leave the Illinois River in the vicinity of Springfield Bay, north of Peoria, and swing south, passing over the Lincoln and Springfield areas.

GCCHS Can Still Take Undisputed Title In Grid Conference—If

When Belleville West's 34-14 victory over Edwardsville was announced over the public address system at the GCCHS field during Friday night's Warrior non-conference game, Warrior fans let out a loud cheer.

"Perhaps it should have been a cautious cheer, but it did keep GCCHS title hopes alive. Edwardsville's defeat leaves Granite City 4-1 (conference record) with an outside chance to capture alone and not share the Southwestern Conference championship. But Belleville West and East St. Louis would have to go into immediate playoffs for this happen."

Belleville West's win leaves the Maroons with an undefeated 4-0 conference record, a 7-1 overall record (the loss was early in the season to undefeated Belleville East) and a somewhat cleaner road to sole ownership of the league title.

East St. Louis is still a championship contender with a 3-1 record. The Warriors can clinch at least a tie with a victory at 8 p.m. Friday at Belleville West.

Sole ownership of the title can be won by the Warriors if they top the Maroons, the Flyers lose to Collinsville this weekend and then on Thanksgiving day the Flyers top Belleville West.

MORE ABOUT Three Youths

at 12:40 a.m. Sunday when police investigated a fight report. The youths were taken to the station where they were held for an hour later.

Officers who participated in the capture were Sgt. Everett Kelly and Patrolmen Albert Diak, Glen Wright, Elwyn Dickey and Richard Woods. Dickey suffered a severe hand cut during the investigation.

Officer Wright had climbed to the Grant street roof last week to arrest the two youths. The two episodes had no connection, but it was noted during the fight that a department within a period of several days is a rarity.

Only Ill. Teacher Shortages Are In Special Fields

Ray Page, Illinois superintendent of public instruction, has released figures showing that teacher shortages in the state have been eliminated in most areas except for certain fields of specialized education. A "teacher shortage survey" is conducted annually under the direction of A. R. Evans, assistant superintendent of public instruction, Division of Finance and Statistics.

The report shows that 1016 actual vacancies existed at the beginning of the current school year. Over half, 544, are in the field of special education.

"The need is critical for teachers of children who are mentally or physically handicapped, socially maladjusted, emotionally disturbed, and deaf or hard-of-hearing. Psychologists are also in great demand," Evans reports.

"The reason for the shortage of teachers in special education is the need for a special type of person, with special training. After the person is qualified as a teacher, graduate work is needed before a special certificate can be issued allowing the teacher to work with handicapped students."

"The current shortage is also due to the increase in number of special education classes in Illinois schools."

"This mandatory program for special education, effective July 1, 1969, was created by legislation passed by the 74th Illinois General Assembly requiring that all children, regardless of their handicap, will be provided with a good common school education."

Openings for school librarians throughout the state total almost 100, mostly in elementary schools. This shortage also is attributed primarily to the additional education the teacher needs to qualify for the position.

Counselors, Industrial Arts
Other critical areas include guidance counselors and industrial arts teachers in high schools and junior high schools. Teachers of mathematics and science are needed at the high schools and junior high school level. First, second and third grade teachers are in demand.

The report shows that 346 teachers who had retired from the profession returned to the schools this year. Increased salaries and pension benefits drew them back from early retirement or jobs in private industry.

Over 15,000 college graduates began their careers as teachers this September. Supt. Page commented, "Illinois now has 64 colleges and universities which operate approved teacher-education programs and have the best system of teacher certification in the nation."

Amsted Sales Up for Year — Set New Company Record

Amsted Industries' sales for the year ended Sept. 30, amounted to \$261,000,000, an increase of 12% from \$233,300,000 in the prior year, it was announced at Chicago last week by Joseph B. Lanterman, chairman and chief executive officer.

This was the first year in company history in which sales exceeded a quarter of a billion dollars. The board declared a dividend at 60 cents per share, payable Dec. 15.

Sales of Amsted's industrial products rose to a record-high of \$174,000,000 from a year ago. "The increase was due primarily to having the benefit, in 1969, of a full year's sales of Burgess-Norton acquired in May, 1968," Lanterman said.

Industrial product sales accounted for 65% of Amsted's total volume. Sales of railroad products were \$92,400,000, up \$10,300,000 from 1968, principally as a result of the high level of new freight car buying.

Net income for fiscal 1969 amounted to \$10,000,000 compared with \$9,755,000 in 1968. Earnings per share were \$3.62 in 1969 and \$3.55 in 1968.

Lanterman noted that several adverse factors affected earnings this year. These included higher wage and salary costs, increased material prices, additional interest expense, the 10% Federal income tax surcharge, competitive pressures on selling prices — particularly of side frames and bolsters for railroad freight cars which have prevailed since September 1968 — and heavy start-up costs in connection with new plant facilities. In addition, like most companies, Amsted experienced labor shortages, high turnover and absenteeism, which reduced productivity.

The Secret of Selecting Siding That Protects Your Home Better--Longer!

You've heard of aluminum siding. You've heard of steel siding. You've heard of wood siding. These are fine products, but we do not believe you should purchase siding because of the base material. We say this . . . siding should be purchased primarily on the basis of the finish, not on what is underneath. This makes sense, because it is the finish, not the base material that fails. When it (the finish) cracks, curls, peels, wears thin or becomes unsightly for any other reason, repainting or resurfacing is necessary. The secret, therefore, to retaining the beauty of a home at the lowest possible maintenance cost is to select exterior siding that has a finish which gives longest possible service. Vinyl on metal (Vinylized Siding by Mastic) provides that finish.

AS FLOORING — Vinyl takes a merciless beating daily.

AS PIPING — Vinyl carries corrosive liquids and acids.

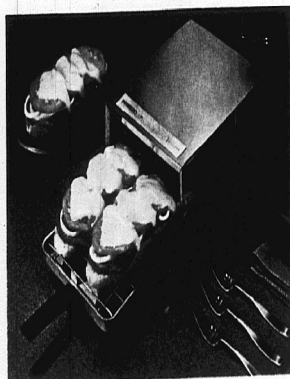

IN AUTOMOBILES — Vinyl's weatherability and durability makes it the auto makers choice for interior and exterior use.

IN CONSTRUCTION — Vinyl is used to protect the exteriors of modern skyscrapers and high rise apartments.
